**UNITED STATES ENVIRONMENTAL PROTECTION AGENCY****REGION 5****230 SOUTH DEARBORN ST.****CHICAGO, ILLINOIS 60604**REPLY TO THE ATTENTION OF:  
5HR-11

MAR 24 1988

Dear Enviro-Chem or Northside Sanitary Landfill Potentially  
Responsible Party:

The United States Environmental Protection Agency (U.S. EPA) has developed and maintained the transactional data bases which show the volume of waste sent to each site by each potentially responsible party. These data bases were released to the Steering Committees in early October, 1987. As a follow-up, U.S. EPA made its files available to steering committee representatives in Chicago on November 12, 1987. An initial deadline for receipt of proposed changes was set for November 30, 1987. However, because of an overwhelming number of comments, we have been continuing to evaluate the comments we have received and have made appropriate changes in the data bases.

This letter is to inform you that any additional requests for changes in the transactional data bases must be received by April 8, 1988 in order to be evaluated and included, if appropriate, in the final computer run to be done by U.S. EPA's contractors. Any questions regarding the transactional data bases should be directed to Janet Haff at (312) 886-6541.

Sincerely,

Karen A. Vendl  
Geologist
